PROFESSIONAL SUMMARY

I'm a passionate Full Stack Developer with over 3 years of experience in building scalable, performance-driven applications. My journey has been rooted in curiosity and a deep desire to solve real-world problems with clean, efficient code. Whether it's front-end design with React or building secure backend systems in Laravel or Node.js, I enjoy crafting solutions that are both robust and user-centric. I thrive in collaborative environments, love mentoring juniors, and am always eager to pick up new tools and technologies.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap, jQuery

Backend: Node.js, PHP, Laravel, CodeIgniter, Express.js, REST APIs

Database: MySQL, Firebase, MongoDB

Version Control & DevOps: Git, GitHub, SVN, AWS

Web Servers & APIs: Nginx, Apache, Firebase Authentication, Razorpay API, Google Maps API

Project Management & Tools: JIRA, Trello, Slack, Odoo, Agile & Scrum Methodologies

PROFESSIONAL EXPERIENCE

Senior Software Developer
📍 **Abhinav DigiComSoft Pvt. Ltd. | 📅 Oct 2021 – March 2025**

- Developed full-stack web apps using React, Laravel, and Node.js

- Built secure APIs and integrated services like Razorpay, Google Maps, and Firebase

- Created user-friendly UI components and responsive layouts

- Collaborated with cross-functional teams and mentored junior developers

- Handled real-time features like live chat, delivery tracking, and payment flows

PROJECTS

- **Finance Transaction Record | (Node.js, Express, MySQL, React.js)**

  - Developed a secure finance tracking system for businesses to manage transactions.
  - Implemented JWT authentication and role-based access to enhance data security.
  - Optimized database queries, improving report generation speed by 35%.

- **LED Wizard Developer | (Node.js, Flomat.js)**

  - Built an interactive tool for LED lighting layout modeling and dynamic visualization.
  - Improved UI/UX performance using optimized front-end rendering.

- **Parent-Teacher Communication App | (Java, Firebase, SQL, Google Drive API)**

  - Led the development of a real-time chat & notice system for parent-teacher communication.
  - Integrated Google Drive API for secure file sharing & document storage.

- **Bill of Material (BOM) Management System | (CodeIgniter 4, Konva.js)**

  - Developed an interactive product visualization system for manufacturing companies.
  - Designed drag-and-drop feature for assembling product components.

- **Product Delivery System | (Laravel, Firebase, Google Maps API, Razorpay API)**

  - Developed a Product Delivery System using Laravel framework for backend operations.
  - Employed Firebase for data storage and authentication, Google Maps API for location services, and Razorpay API for payment processing.

- **Payroll Employee Management System | (PHP, MySQL, Email Integration)**

  - Automated payroll calculations and salary slip generation, reducing manual effort by 60%.
  - Integrated email notifications for payroll reports.

EDUCATION

🎓 **Master of Computer Applications (MCA)** – Pune University (2023) | 79.83%

🎓 **Bachelor of Computer Applications (BCA)** – Pune University (2021) | 85.87%

🎓 **HSC (Bifocal Science)** – Maharashtra State Board (2018) | 62.62%

🎓 **SSC** – Maharashtra State Board (2016) | 81%
